PERFORMANCE PROTECTION

WWW.REKDPROTECTION.COM

WHY REKD?

REKD Protection brings high quality British designed products that provide great comfort, distinct support and premium quality protection where it matters.

REKD strives to create distinctive, attractive products that provide optimum protection, support and comfort whilst giving the premium look and feel that modern riders demand.

Our key focus is on safety and structure. After much research, testing, hand-sculpting, prototyping and moulding, the team believes that it has created one of the toughest, best-fitting and most comfortable certified helmets on the market today.

Thanks to the low-fitting, lightweight design, they will not hinder your performance, making it suitable for all action sports.

HELMET TECHNOLOGY

Everything about REKD is designed by our team in the UK.

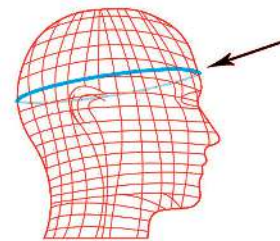

Months of research and development have made sure that our helmets not only look great but that they truly perform!

The EPS inner shell is engineered to be a low volume, snug fit and the weight saving channels within the EPS ensures a lightweight, durable and well ventilated helmet that doesn't compromise the vital structure and support, essential to a certified helmet.

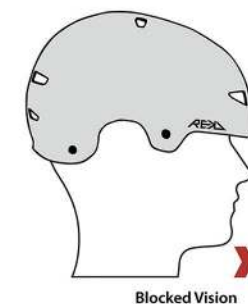

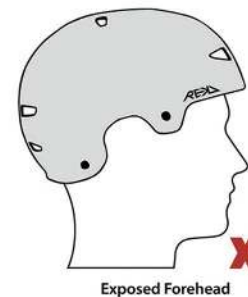

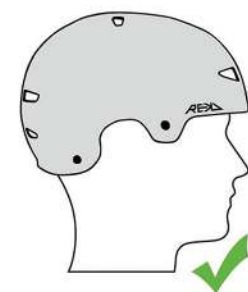

HOW TO MEASURE YOUR HEAD

Using a measuring tape, measure the widest part of your head. This is usually just above your eyebrows and ears.

The size guide on each page will tell you which size REKD helmet you should wear, based on your head measurement.

All REKD helmets come with two sets of padding inserts to ensure you get the optimum fit.

TEST STANDARDS

All of our helmets conform to EN1078 test standards, a European standard published in 1997, meaning that they are suitable for all non-motorised action sports.

This covers the construction and shape of the helmet including field of vision, shock absorption, retention system properties (chin strap and fastening / closure devices as well as markings and information).

Our helmets conform to the Consumer Product Safety Commission (CPSC) test standards.

Your safety is key, so we have ensured that all of our products are fully tested and certified.

R159: ELITE HELMET

The Elite has been designed and developed to provide durability, comfort and protection for all extreme sports disciplines.

TECH SPECS:

- Heavy-duty ABS outer cap
- High Density EPS foam inner shell
- 3-point nylon strap
- Certified to EN1078 and CPSC standards

RKD640: IMPACT KNEE GASKETS

The REKD Impact Knee Gasket are our slimmest-fitting pads, ideal for wearing under clothes for a more subtle look.

Great impact reducing capabilities, ideal as additional padding under other knee pads or as a stand alone pad when hard impact caps aren't needed.

Sizes S/M/L

FEATURES

- Vented Neoprene laminated nylon
- Breathable rear knee hole for pinch free riding
- Dual strap ensures minimal pad shift
- Hard wearing Kevlar material

RKD500: SLIDE GLOVES

The REKD slide glove ideal for longboarding or any hands down extreme sport, thanks to the exclusive REKD 4 piece self lubricating POM Nylon pucks.

The domed palm puck, shaped dual finger & thumb puck reduce the chance of pucks coming off mid slide. Rounded edges, minimise the chance of slide snag

FEATURES

- Fully covered Velcro palm and fingers for unlimited puck positioning
- Protective faux suede material in high wear areas extend glove life
- Palm impact support
- Neoprene wrist with elastic strap
- Micro fibre sweat absorbing material on thumb
- Elasticated backhand stitching to stop excess material
- Ergonomically shaped
- Embroidered REKD logos and custom backhand print

ES

Protección REKD se esfuerza por crear productos distintivos y atractivos que ofrezcan una protección máxima, así como un buen apoyo y comodidad, al mismo tiempo que proporcionan una apariencia total y la sensación de primera calidad que los usuarios esperan.

Nuestros objetivos principales son la seguridad y la estructura. Tras haber llevado a cabo numerosas investigaciones, pruebas, esculturas a mano, creación de prototipos y piezas de fundición, el equipo cree firmemente que ha creado uno de los cascos más resistentes, cómodos y con mayor facilidad de adaptación en el mercado actual, haciendo así que sean aptos para cualquier tipo de deportes de acción.

El objetivo central de la marca es la seguridad y la estructura. Después de mucha investigación, pruebas, escultura a mano, creación de prototipos y piezas de fundición, el equipo cree que ha creado uno de los cascos certificados más duros, mejor montaje y más cómodos disponibles en el mercado hoy en día, lo que es adecuado para todas las disciplinas de los deportes extremos.

FR

REKD Protection cherche à créer des produits qualitatifs au design soigné. Tout en proposant un look unique pour satisfaire la demande des riders actuels, la marque offre une protection, un soutien et un confort optimums.

La marque se concentre particulièrement sur la sécurité et la structure. Après énormément de recherches, de moulages à la main, de prototypes et de tests, l'équipe de REKD pense avoir conçu l'un des meilleurs casques disponible sur le marché. Sa résistance, son confort et son excellent ajustement font qu'il peut s'adapter à toutes les disciplines de sports extrêmes.

DE

Rekd Protection ist bestrebt, unverwechselbare, attraktive Produkte mit optimalem Schutz, Unterstützung und Komfort zu bieten, trotzdem aber den Premium Look und das Feeling des modernen Fahrers, welches gefragt ist, beizubehalten.

Schwerpunkt unserer Marke ist Sicherheit und Struktur. Nach vielen Nachforschungen, Tests, viel Handarbeit und Formung, glaubt das Team einen der stabilsten, am besten passenden und bequemsten zertifizierten Helm auf dem Markt bereitzustellen. Er ist somit für alle Disziplinen von Extremsportarten geeignet.
